Summary

Azure Integration Developer | Cloud Solutions Expert | TIBCO Specialist | 6+ Years Experience

I'm a results-driven Integration Developer and L3 Support Engineer with over 6+ years of hands-on experience in building, deploying, and supporting cloud-based and enterprise-grade integration solutions.

What I Do:

I specialize in designing and implementing scalable solutions using Microsoft Azure PaaS services such as Logic Apps, API Management, Azure Data Factory (ADF), Service Bus, Storage Account, Event Grid, Key Vault, and Azure Functions. I also bring deep expertise in traditional integration stacks like TIBCO BusinessWorks (5.x), EMS, APIX, Silver Fabric, and Shell scripting. Furthermore, I leverage AI Fundamentals (AI-900), AI Agent with Google API/Groq API Integration to develop and customize AI models.

Tech Stack:

- Azure (Logic Apps, ADF, APIM, Service Bus, Storage, Event Grid, Functions, Key Vault)
- TIBCO Suite (BW 5.x, EMS, APIX, Silver Fabric, AMX Admin, BW Admin)
- Languages: Python, C# & .Net Framework, SQL, Unix/Shell Scripting
- AI Fundamentals (AI-900), AI Agents with Google/Groq API Integration.

Strengths:

- Strong in production support & development
- Skilled in agile delivery environments
- Passionate about automation and process efficiency
- Experienced across Banking and Health domains (CitiBank, Vitality Health, TSB Bank)

Integration specialist with 6+ years of experience architecting and maintaining cloud-based solutions using Microsoft Azure and TIBCO suites. Expert in leveraging automation and modern integration patterns to enhance system reliability and process efficiency. Proven track record in resolving incidents quickly, improving onboarding flows, and automating manual tasks, resulting in measurable productivity gains.

Gained practical AI knowledge via AI-900 fundamentals, prompt engineering skills, and building a travel planner with Google APIs. Aims to bridge business needs and technology by delivering high-impact, innovative integration solutions.

Key Achievements

- | | | |
|---|--|---|
| ✓ Logic Apps Development
Developed four Logic Apps improving onboarding efficiency by 20% within enterprise projects. | ✓ ADF Development
Transformed data using Azure Data Factory (ADF) based on requirements, developing numerous pipelines. | ✓ Azure APIM
Integrated APIM, creating secure APIs with JWT validation and enhancing system communication for internal processes. |
| ✓ Automation Achievement
Implemented automation scripts in Python reducing manual work by 50%. | ✓ TIBCO Integration
Implemented TIBCO BusinessWorks integration code and successfully deployed applications to production. | ✓ Google/Grok API Integration
Developed integrations with Google/Grok APIs, creating custom functions |

Experience

HCLTech

Hyderabad, India

Azure Developer

09/2023 - Present

As HCL acquired several projects from Cloud Software Group, I transitioned to HCL Tech Ltd through a rebadging process. During this time, I contributed to two major Azure-based integration projects focused on enterprise automation and employee enablement.

- **Azure Integration & Logic Apps**

Developed four Logic Apps improving onboarding efficiency by 20% within enterprise projects.

Designed and implemented 4 Logic Apps covering the full training lifecycle.

Enabled real-time syncing of enrollments and completions between internal systems and the external.

Implemented various Logic App triggers such as Storage Events, HTTP, Recurrence, and Service Bus.

Converted data formats including XML to JSON, JSON to TEXT, and vice versa in Logic Apps.

- **API Management (APIM)**

Integrated APIM, creating secure APIs with JWT validation and enhancing system communication for internal processes.

Published APIs through APIM for internal system communication.

- **Data Engineering & ADF**

Transformed data using Azure Data Factory (ADF) based on requirements, developing numerous pipelines.

Used ADF for secure and reliable data ingestion from multiple sources.

- **Automation & DevOps**

Automated deployment of ADF pipelines and related components using Azure DevOps CI/CD pipelines with ARM templates.

- **Security & Monitoring**

Secured sensitive data with Key Vault and stored employee documents in Azure Storage.

Added error handling and monitoring to ensure reliability.

Resolved high-priority incidents reducing response times by 30% across all environments.

- **Messaging & Data Storage**

Used Event Grid and Service Bus for messaging and notifications.

- **Cost Management**

Regularly reviewed billing reports and cost trends to proactively address anomalies and avoid budget overruns.

TIBCO

Hyderabad, India

Associate Consultant

11/2021 - 09/2023

Worked as part of the L3 production support team for Citi Bank's integration platform. My focus was on identifying root causes, applying fixes, and ensuring system stability. Supported and enhanced TSB Bank's TIBCO integration stack, with a focus on architecture understanding, issue resolution, and automation.

- **Incident Management & Troubleshooting**

Resolved high-priority production incidents with quick turnaround.

Gained deep experience in handling live production calls and log analysis.

Understand and worked on TIBCO Silver fabric and APIX tools to make the platform stable

- **Operational Efficiency & Enhancements**

Created automation scripts in Shell and Python to improve efficiency.

Worked on enhancements and platform improvements across environments.

Understood the overall architecture of the TSB platform for faster issue resolution.

Tata Consultancy Services

Chennai, India

TIBCO Developer

06/2019 - 11/2021

Started my IT career as a TIBCO Engineer, focusing on incident management, monitoring, and automation to improve system efficiency.

- Handled daily production support incidents and performed root cause analysis.

- Developed automation tools using TIBCO BW to reduce manual effort.

- Improved issue resolution time through proactive monitoring and alerting.

- Designed and developed TIBCO BW applications aligned with business needs.

- Collaborated with business users and architects to deliver scalable integration solutions.

Graduation, Languages, Communication Address and Awards

Graduated in ECE at GVPE in Vizag
with 8.66/10 with JNTU Kakinada
Affiliation

On-the-Spot Awards for
accomplishing tasks within
deadlines and Swift completion of
DR Activity
